PART IV.

Produce Export Section

On the following pages will be found lists of the principal exporters of a wide variety of agricultural produce arranged alphabetically by commodities. We are indebted to the Department of Trade and Commerce, Ottawa, for their co-operation in supplying the nucleus of this section. We have added considerably to it and have increased its scope by listing various export merchants, forwarders and other classes of business associated with the export of produce.

We trust that the inclusion of this section will make the Canadian Trade Index a new medium of communication between intending importers the world over and the Canadian producers and exporters of agricultural produce.

GUIDE

GUIDE

Indice Commercial

Canadien

2ème PARTIE

Commençant à la page 193, sur papier bleu, se trouvent les noms et les adresses des manufacturiers.

3ème PARTIE

Commençant à la page 317, se trouve une liste alphabétique des articles fabriqués au Canada, donnant les noms de toutes les maisons qui les fabriquent.

Le mot principal en Anglais est ordinairement placé le premier, suivi d'une phrase le modifiant, i.e., Quincaillerie, de construction: Cuir, coupe de bottines et chaussures; Enseignes de toile et fibre. Mais, quand l'inversion ne semble pas faisable le mot modifiant est placé le premier, et est ainsi arrangé dans la liste alphabétique, i.e., Mécanisme de piano—Piano hammers; Shoe packs—Chaussures en cuir tanné à l'huile. En cas de doute on peut essayer les deux méthodes. Quand deux noms ou plus sont communément employés pour le même article, nous avons essayé de donner des explications vis-à-vis. Quand on desire l'adresse de la rue, voir la IIème Partie, commençant à la page 193. Les noms des fabricants qui font ou sont intéressés dans le commerce d'exportation sont indiqué par un asterisque*.

4ème PARTIE

Commençant à la page 667. Section Spécial indiquant les noms des exportateurs principaux des produits de la ferme, etc.

5ème PARTIE

Commençant à la page 675 sur papier bleu. Section de Traduction—(a) Français, page 675. (b) Espagnol (édition limitée), page 717. Les noms des articles donné dans l'Indice Français et Espagnol sont suivis par leur équivalent en anglais, et l'équivalent en anglais se trouve placé alphabétiquement dans la IIIème Partie.

The Path of Power and Progress

C.G.E. transformers and oil circuit breakers play a prominent part in Canada's highest-voltage transmission system — the 230-mile, 220,000-volt transmission system between the Pagan Falls Station of the Gatineau Power Company and the Leaside Station of the Hydro-Electric Power Commission of Ontario.

NOT many years ago, throughout the country, were located "power towns"—industrial centres fortunate enough to be located at water-power sites.

Now, thanks to electricity and long-distance transmission, all this has been changed. Now every town can be a power town. Networks of transmission lines are strung across the countryside, bringing unlimited, cheap light, heat and power from distant waterfalls to countless cities, towns, rural communities and farms.

Canadian General Electric Company, Limited, has pioneered many developments in high-voltage transformers, oil circuit breakers, lightning arresters and other equipment that make such transmission possible.

Something Different

sells packaged goods today

MODERN industry, whether looking for larger markets or better markets, demands "something different" in packages and decoration — something to distinguish their products from other brands carried in Canadian stores.

Let containers by Canco give your product that added touch which makes quicker turnover—faster sales. The vast resources of Canco enable us to secure the best brains and the most accurate machinery in the package field. That's why there's something different in Canco packages.

Whatever packages you select, whether metal or fibre—Canco assures you absolute faithfulness in manufacture and design. Let the Canco man tell you about the complete package line — made in Canada for Canadian customers. Whatever your need, there are quality Canco containers — for everything from soup to nuts.

MOFFATS

have devoted themselves to cooking ranges exclusively for over forty-three years.

Gold Medal Electric Ranges

Made in Canada and sold the world over

Moffats ranges are accepted as standards of value and efficiency wherever electricity is used for cooking and baking. Over 100,000 in daily use.

AWARDED

The latest tribute to the general high quality and excellence of Moffats Electric Ranges comes from New Zealand, where—in competition with ranges from Canada and all parts of the world at the New Zealand and South Seas Exhibition—they have been awarded the gold medal, the highest award in the gift of the Exhibition Council.

Announcing Moffats New 1929 Models The "600 Series" Gas Ranges

The Blue Seal Specifications were laid down by the specialists of the Canadian Gas Association, the American Bureau of Standards, the Public Health Service and the American Gas Association.

The Blue Seal is permanently enamelled on the oven door of Moffats Gas Ranges.

Moffats Gas Ranges were the first Canadian-made Gas Ranges to carry the Blue Star of approval, which guarantees:

1. Twice the life of an ordinary Range.
2. Absolute safety from Fire Hazard.
3. Freedom from carbon monoxide fumes.

Over 16 new and exclusive features have been added to these ranges. We shall gladly give you fullest particulars.

“Galvaduct”

An electro-galvanized “quality” conduit, enamelled on the interior, superior to all others on the market. Is used in all first-class installations.

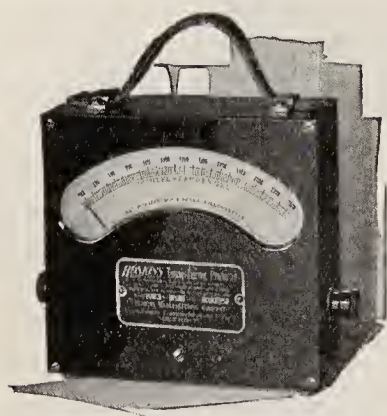

“Loricated”

Is manufactured with the same care and from the same quality of materials as used in “Galvaduct” but in place of being electro-galvanized is coated both inside and out with a high-grade flexible and moisture-proof enamel, which renders it impervious to the action of acids and other chemicals.

WIREMOLD

A flat conduit for surface wiring, extensions, signal systems, etc. Comes in ten foot lengths, the same as “Galvaduct” and “Loricated”.

Where there is no Substitute for Quality - - and why!

THE immaculate interior factory view reproduced above is a section of the fine new plant of the New Method Laundry, Toronto.

Sherwin-Williams Morelite gloss and flat white are the finishes that have given this interior such a pleasingly clean appearance.

These are the finishes that were used exclusively — because of their high quality, durability, and covering capacity.

And on account of these qualities — characteristic of all S. W. Products—the very slight extra cost (over cheap grades) proves a gain in the long-run, on the finished job.

LACQUERS

and Lacquer Enamels

THE host of satisfied customers who have become regular users of COSMOS Lacquers since we pioneered the manufacture of lacquers in Canada in 1913, has resulted largely from the specialized service we have been able to render them. These customers now include many of the largest users of lacquers and lacquer enamels.

A scientific method of producing lacquers, founded on extensive laboratory experiments and careful testing, has enabled us to produce a line that has met exacting requirements where other lacquers have failed.

A Laboratory Service for Lacquer Users

We make a point of devoting our complete laboratory facilities to the solution of our customers' problems. The use of only pure materials and modern scientific methods has enabled us to render a unique individual service. While we have evolved a standard line of lacquers, lacquer enamels and kindred products that is unrivalled, we are always ready to use these same careful methods in meeting a new situation. A statement of **your** problem will bring you this service without obligation. Our standard lines include:

Lacquers for Wood, Metal, Glass, Ceramics	
Leather Solutions	Refined Fusel Oil
Lamp Colorings	Butyl Alcohol
Bronze Powders and Liquids	Butyl Acetate
Amyl Acetate (pure)	Banana Oil

Industrial research

Today, scientific research theory is the very foundation of success in industrial manufacturing. Science, as represented by the industrial engineer and others engaged in research work, —has saved millions of dollars in materials, in labor and in power.

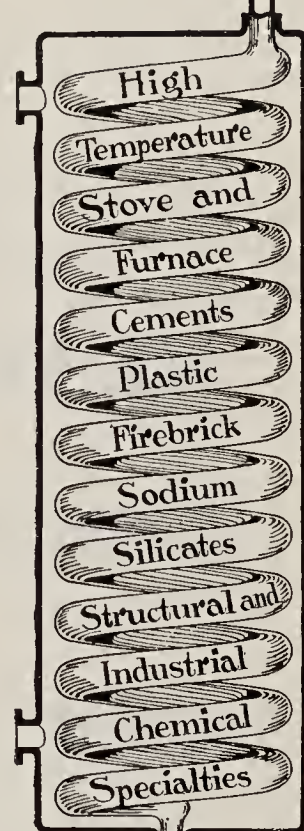

To executives with vision, science and the industrial chemist are bringing new opportunities for industrial success, new methods of keeping the red out of the balance sheet.

Sternson laboratories and Sternson engineers are well equipped for, and capable of, undertaking industrial research work for you and we suggest that you name a time when we may call and talk to you about it.

A Happy Thought

Little thoughts on SERVICE

Welding, as a mechanical operation, is quickly learned. As a physical problem — not so easy.

To distinguish when one is **not** and the other **is** requires experience. A slight error of judgment or lack of knowledge may make a failure out of a comparatively simple job. There is no substitute for **experience**.

Experience is what a Canadian Liquid Air Service Operator can bring to you. It does not figure on the invoice you get when you order merchandise but it does have an influence on your cost records.

The Service Operator's name is not on your payroll but he is as available to you as if it were. Why not consult him?

“Better Ferro Alloys”

EVERY Steel Melter strives for economy and efficiency. He knows that better metallurgical results can be obtained by using the highest grade alloys, uniform in analysis and of a size best suited for his practice.

ELECTROMET ALLOYS are made in electric furnaces, from carefully selected raw materials.

ELECTROMET service means prompt shipment of your orders from stock and the help of our metallurgical staff when you need it.

Write for our booklet on the properties and uses of ELECTROMET alloys.

Keystone . . .

The Mark of Quality on Toilettware . . .

WHETHER it be the finest of fine toilettware, the most highly-perfected tooth brush made, or just a common whitewash brush, the "keystone" trademark is your guarantee of expert workmanship and superior quality materials.

37 years' experience in developing the technical knowledge required to construct each product to withstand the severest demands that may be made upon it, has created an international reputation for Keystone Products.

The constantly increasing number of repeat orders, that come in, year after year, from satisfied customers, is the greatest tribute that can be paid to the unvarying quality of these products.

Some of Our Standard Products:

CORO-NOLEUM

The Cleansing Disinfectant

Cleans and disinfects in one operation, eliminating soap and soap powders; saving time, labor and money. Guaranteed 5 to 6 times stronger bacteriologically than pure Carbolic Acid when tested by the Hygienic Laboratory Phenol Co-efficient Method of the United States Public Health Service.

DEODORANTS

The West Disinfecting Company manufactures a complete and superior group of deodorants in liquid form which are automatically dispensed from our Automatic Drip Machines; in solid form which evaporates entirely; and in the form of a perfumed spray fluid. Each of these products has been developed to be the most pleasant and effective in its respective uses.

SUREKILL

is a powerful, stainless liquid insecticide. It is 100% active, containing no inert or ineffective ingredients. The long list of satisfied, constant users of Surekill is the best indication of its merit.

WEST LIQUID SOAPS

are made of pure vegetable oils and are compounded under the direction of chemists who were pioneers in the manufacture of liquid soap. The quality of our soaps is the highest attainable.

WESTOWL

The Paper Towel

The Westowl is a strong, soft, absorbent interfolded paper towel which fulfills all the government requirements for tensile strength, absorbency, size, etc., with quality to spare. They are dispensed from attractive, sturdy, white-enamelled wall containers. Westowls are packed in dust-proof fibre cartons containing twenty-five packages of 150 each. They are economical as well as sanitary.

PIPE KLEN-ZO

The Handy Plumber

Pipe Klen-zo is a powder which, when dissolved in hot water and poured into a stopped-up sink, bowl, or hopper, promptly clears away the obstruction. No delays or tearing up of woodwork.

What are **SANITARY NECESSITIES ?**

Sanitary necessities are the products, appliances, and systems which aid in the elimination and prevention of disease. These include vaccination and inoculation which make us immune to certain diseases, the elimination of plague spots and the proper disposal of waste products, and cleanliness in our everyday surroundings.

The importance of the last of these sanitary necessities cannot be overestimated. It is in our workaday life that all of us come in contact in one way or another with the bacteria of disease. The effect may be only a weakening of the system rather than a complete breakdown of resistance, but there is an effect.

For over forty years the West Disinfecting Company has manufactured products for the promotion of sanitation. It is the largest company in the world engaged exclusively in this field. In the column at the left are a few of our standard products. There are many others. We solicit your inquiry for details about any of them or about any product used in furthering sanitation. If we do not already manufacture it our laboratories are at your service.

PERMANENCE

EACH piece of Canadian Solid Vitreous sanitary ware is built from a dense, stone-like, high-fired, all-clay body, combined inseparably with a white, lustrous, easily-cleaned glaze surface both impervious to dangerous acids or germs and of a weight sufficient to ensure a life-time of reasonable usage.

The utmost in sanitation is subtly combined with beauty to give a permanence of wonderful satisfaction in fixtures designed for residences, apartments, hotels, hospitals, factories, schools, or public institutions of any kind, as well as for steamships.

What "KODAK" Means

As a word, a trade-name, "Kodak" is simply an arbitrary combination of letters.

As a trade-mark, "Kodak" indicates certain of the products of the Kodak Companies to which it has been applied, as, for instance, Kodak Cameras, Kodak Film and Kodak Film Tanks.

As an institution, "Kodak" stands for leadership in photography. To the world at large it is best known for its simplification of photography for the amateur, for its Kodak and Brownie Cameras, for its films and papers. To the professional photographer, it is known for its progressive leadership in the manufacture of everything that is used in the studio. In the cinema world it is known as the producer of the film that made the motion picture possible. To the scientist, it is known for its X-Ray products, now so vital in the mending of men.

In 1888, when the two "k's," the "o," the "d," and the "a" were euphoniously assembled, they meant nothing. Today they mean protection for you in the purchase of photographic goods.

If it isn't an Eastman, it isn't a Kodak

AGENTS THROUGHOUT CANADA

Growing with Canada

Through all the 78 years since it began, the Robert Mitchell Company has grown surely and carefully with the country. And it is growing with Canada now as a national institution.

Today, in the great new buildings which mark the growth of a score of Canadian cities and in the coaches of Canada's railways, the work of the Robert Mitchell craftsmen may be seen in iron and bronze and brass.

You find their work again in the equipment of Canada's mines, in her pulp and paper mills, in any place where enduring quality and exactitude are required.

The Robert Mitchell Company has shared Canada's prosperity and is contributing to it.

Sell the Genuine RUBBERSET BRUSH!

THE greatest compliment a product can have is to be imitated. The most widely imitated brush in the world is the Albright-Rubberset. But over 50 years ago they couldn't imitate our inventive genius which produced the Rubberset process. And they've never been able to catch up. The difference may not show on the surface. But it shows in the work. Sell the genuine. Make sure Old Man Rubberset is in the trade-mark. Correspondence invited from jobbers and dealers in Canada and other parts of the British Empire.

Good Lubrication Costs Less

THE majority of Canadian plant operators insist upon efficient, scientific lubrication these days. They realize that poor oil is expensive at any price.

Imperial Lubricants are especially prepared to meet this modern demand for correct lubrication. There's a grade of uniform-quality Imperial oil or grease for each different lubrication requirement of your plant. Supplies are always conveniently available.

Actual records show a marked reduction in overhead expense and increased capacity throughout plants where Imperial Lubricants are regularly used.

You cannot afford to buy any but the best oils for expensive machinery. Call in an Imperial Engineer to help you standardize the lubrication of your plant.

SPEED

Toledo Scales insure speedy material-handling. They instantly show exact weight by automatically pointing to a definite figure on the dial. Where competition makes speed a factor in securing a profit by the reduction of costs, Toledo Scales are placed in the front rank of essential, time-saving equipment.

There are Toledo automatic dial scales adapted to any handling method—overhead track scales . . . conveyor scales . . . hopper scales . . . tank scales . . . floor-level scales . . . bench scales . . . hanging scales . . . auto truck

scales...scales up to 60,000 pounds capacity. There are cylinder-type and fan-type scales for retail stores.... letter, air mail and parcel post scales for offices and shipping rooms . . . and personal-weight scales. . .

May we send a representative to make a weight-study of your plant operation? Please write us.

Elevating, Conveying and Power Transmitting Machinery

Link-Belt Anti-Friction Belt Conveyor

The Link-Belt Anti-Friction Belt Conveyor Idler represents the latest development in this field, and its details are the results of Link-Belt engineering experience of over half a century in handling materials. They are provided with high grade roller bearings, and have large grease chambers suitable for several months' lubrication.

Our new plant at Eastern Avenue and Leslie Street, Toronto, is equipped with the most modern facilities for manufacturing Anti-Friction Belt Conveyor idlers and other Link-Belt elevating, conveying and power transmission machinery.

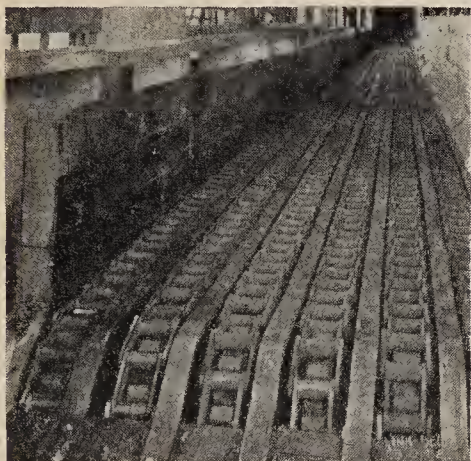

We make a belt conveyor idler for every service.

Send for a copy of our new 148-page Belt Conveyor Data Book No. 615.

Chains

For transmitting power or elevating and conveying, high or low speed, light or heavy duty, there is a standard Link-Belt chain suited for the purpose.

Link-Belt manufactured the first detachable chain and since that time we have maintained

quality in material and workmanship to such a degree, that our chains have become a standard by which to measure accuracy of pitch, and what the life of a good chain should be.

Buckets

Large stocks of many types and sizes of steel and malleable iron buckets maintained at all times. We solicit your business on the basis of quality and service.

Gears

Smooth running, correct in design, accurate and true to pitch, Link-Belt gears give satisfactory service. We make machine molded, cut tooth, mortise gears, worm gears, etc.

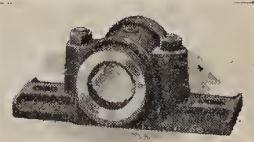

Sprocket Wheels

All sizes, with any number of teeth, for any standard pitch chain. Before shipping, the teeth are fitted to a standard chain, also inspected for quality and finish. Made with plate, arm, or solid center with hubs split, solid, to suit conditions. Send for catalog.

Transmission Accessories

Our line is complete. Bearings—heavy, properly designed and well finished. Iron and steel pulleys of ample weight and accurately turned; also wood pulleys. Our line includes bearings, pulleys, friction clutches, hangers, floor sheaves, hand wheels, fly wheels, safety collars, grease cups, etc.

General Catalog No. 500 shows our complete line. Send for a copy.
